

Create Dramatic Black and White

-The Result May Something Like This. It Depends On You -

Before

After

Let's Start

1. Open Photo in Photoshop.
2. Click on 'Image' from the upper Menu then click on 'Calculation', Now it gives you a B&W photo but we want more better.
3. Change the 'Blending Mode' from Normal to something like 'Overlay' or 'Multiply' anything else.
4. Now on the top 'Channel' option keep Green and Down Blue.
5. You can also play with 'Opacity' if you want.
6. Make sure 'Result' Option is selected 'New Channel' and Now hit OK.
7. Now go to channel and then select alpha channel and press CTRL+A and CTRL+C and come back to layer and create a New Layer then press CTRL+V.

Note:

You can also create a 'Curve' layer to make it more Dramatic.
