

## Remove Excessive Chromatic Abberation

-The Result May Something Like This. It Depends On You -

---

**Before**

**After**

---

### *Let's Start*

1. Open Camera Raw in photoshop
2. Then go to LENSE CORRECTION in the right side pannel.
3. Check the option REMOVE CHROMATIC ABERRATION.

NOTE: If that option does not remove chromatic Aberration then:

1. Click on MANNUAL and hold CTRL button and then just click on that chromatic aberration.
